3 Laws 2002, chapter 133, section 4, is amended to read:

4 45-596. Notice of intention to drill; fee

5 A. In an area not subject to active management, a person may not drill  
6 or cause to be drilled any well or deepen an existing well without first  
7 filing notice of intention to drill pursuant to subsection C of this section  
8 or obtaining a permit pursuant to section 45-834.01. ONLY ONE NOTICE OF  
9 INTENTION TO DRILL IS REQUIRED FOR ALL WELLS THAT ARE DRILLED BY OR FOR THE  
10 SAME PERSON TO OBTAIN GEOPHYSICAL, MINERALOGICAL OR GEOTECHNICAL DATA WITHIN  
11 A SINGLE SECTION OF LAND.

12 B. In an active management area, a person may not drill or cause to  
13 be drilled an exempt well, a replacement well in approximately the same  
14 location or any other well for which a permit is not required under this  
15 article, article 7 of this chapter or section 45-834.01 or deepen an existing  
16 well without first filing a notice of intention to drill pursuant to  
17 subsection C of this section. ONLY ONE NOTICE OF INTENTION TO DRILL IS  
18 REQUIRED FOR ALL WELLS THAT ARE DRILLED BY OR FOR THE SAME PERSON TO OBTAIN  
19 GEOPHYSICAL, MINERALOGICAL OR GEOTECHNICAL DATA WITHIN A SINGLE SECTION OF  
20 LAND.

21 C. A notice of intention to drill shall be filed with the director on

26 to be drilled and the name and mailing address of the owner of the land.

30 proposed to be used as may be required by the director to administer this  
31 chapter.
- 32 6. When construction is to begin.
- 33 7. The proposed uses to which the groundwater will be applied.
- 34 8. The name and well driller's license number of the well driller who  
35 is to construct the well.
- 36 9. The design pumping capacity of the well.
- 37 10. If for a replacement well, the maximum capacity of the original  
38 well and the distance of the replacement well from the original well.
- 39 11. Proof that the director determines to be satisfactory that the  
40 person proposing to construct the well holds a valid license issued by the  
41 registrar of contractors pursuant to title 32, chapter 10 and that the  
42 license is of the type necessary to construct the well described in the  
43 notice of intention to drill. If the proposed well driller does not hold a  
44 valid license, the director may accept proof that the proposed well driller  
45 is exempt from licensing as prescribed by section 32-1121.

12. If any water from the proposed well will be used for domestic purposes as defined in section 45-454, evidence of compliance with the requirements of subsection F of this section.

D. Upon receiving a notice of intention to drill AND THE FEE REQUIRED BY SUBSECTION I OF THIS SECTION, the director shall endorse on the notice the date of its receipt. The director shall THEN determine whether all information that is required has been submitted and whether the requirements of subsection C, paragraphs 11 and 12 of this section have been met. If so, within fifteen days of receipt of the notice, the director shall record the notice, mail a drilling card that authorizes the drilling of the well to the well driller identified in the notice and mail written notice of the issuance of the drilling card to the person filing the notice of intention to drill at the address stated in the notice. Upon receipt of the drilling card, the well driller may proceed to drill or deepen the well as described in the notice of intention to drill. If the director determines that the required information has not been submitted or that the requirements of subsection C, paragraphs 11 and 12 of this section have not been met, the director shall mail a statement of the determination to the person giving the notice to the address stated in the notice, and the person giving the notice may not proceed to drill or deepen the well.

E. The well shall be completed within one year after the date of the notice. If the well is not completed within one year, the person shall file a new notice before proceeding with further construction.

F. If any water from a proposed well will be used for domestic purposes as defined in section 45-454 on a parcel of land of five or fewer acres, the applicant shall submit a well site plan of the property with the notice of intention to drill. The site plan shall:

1. Include the county assessor's parcel identification number.
2. Show the proposed well location and the location of any septic tank or sewer system that is either located on the property or within one hundred feet of the proposed well site.
3. Show written approval by the county health authority that controls the installation of septic tanks or sewer systems in the county, or by the local health authority in areas where the authority to control installation of septic tanks or sewer systems has been delegated to a local authority. In areas where there is no local or county authority that controls the

1 installation of septic tanks or sewer systems, the applicant shall apply for  
2 approval directly to the department of water resources.

3 G. Before approving a well site plan submitted pursuant to subsection  
4 F of this section, the county or local health authority or the department of  
5 water resources, as applicable, pursuant to subsection F of this section,  
6 shall review the well site plan and determine whether the proposed well  
7 location complies with applicable local laws, ordinances and regulations and  
8 any laws or rules adopted under this title and title 49 regarding the  
9 placement of wells and the proximity of wells to septic tanks or sewer  
10 systems. If the health authority or the department of water resources, as  
11 applicable, pursuant to subsection F of this section, finds that the proposed  
12 well location complies with this title and title 49 and with local  
13 requirements, it shall endorse the site plan and the proposed well placement  
14 in a manner indicating approval. On endorsement, the director of water  
15 resources shall approve the construction of the well, if all remaining  
16 requirements have been met. If the health authority is unable to determine  
17 whether the proposed well location complies with this title and title 49 and  
18 local requirements, it shall indicate this on the site plan and the decision  
19 to approve or reject the proposed construction rests with the director of  
20 water resources. If parcel size, geology or location of improvements on the  
21 property prevents the well from being drilled in accordance with this title  
22 and title 49 or local requirements, the property owner may apply for a  
23 variance. The property owner shall make the request for a variance to the  
24 county or local authority if a county or local law, ordinance or regulation  
25 prevents the proposed construction. If a law or rule adopted under this  
26 title or title 49 prevents the proposed construction, the property owner  
27 shall make the request for a variance directly to the department of water  
28 resources. The request for a variance shall be in the form and shall contain  
29 the information that the department of water resources, county or local  
30 authority may require. The department of water resources, or the county or  
31 local authority whose law, ordinance or regulation prevents the proposed  
32 construction, may expressly require that a particular variance shall include  
33 certification by a registered professional engineer or geologist that the  
34 location of the well will not pose a health hazard to the applicant or  
35 surrounding property or inhabitants. If all necessary variances are  
36 obtained, the director of water resources shall approve the construction of  
37 the well if all remaining requirements have been met.

38 H. If a well that was originally drilled as an exploration well, a  
39 monitor well or a piezometer well or for any use other than domestic use is  
40 later proposed to be converted to use for domestic purposes as defined in  
41 section 45-454, the well owner shall file a notice of intention to drill and  
42 shall comply with this section before the well is converted and any water  
43 from that well is used for domestic purposes.
